SORT YOUR WASTE

BIO WASTE

Converted into biogas and fertiliser. Bio waste is all food waste raw as well as cooked, meat, fish, bones, fruits, vegetables, eggs, eggshells, nuts, rice, breakfast products, coffee grounds, coffee filters, tea leaves, used kitchen towels and cut flowers. *Use only biodegradable wastebags and always tie the knot on.*

PAPER

Recycled in new products. Newspapers and magazines, advertising materials, envelopes, also window envelopes, books, including phone books, writing and drawing paper. *No need to remove clips or tape.*

CARDBOARD

Recycled in new products. Cardboard is e.g. cardboard boxes without styrofoam, corrugated board, carton, packaging for toys and toothpaste etc. *Cardboard and carton must be clean and folded flat before drop-off.*

PLASTIC

Recycled in new products. Plastic is e.g. plastic bottles without deposit/return system, bottles used for beverages, shampoo, cleaning detergents, trays from fruit, ice cream etc., cd covers, other plastic items such as buckets and toys. Plastic bags and plastic wrap. *Containers must be empty and rinsed.*

METAL

Recycled in new products. Metal is e.g. beverage containers of metal without deposit/return system, clean tins and cans, pots and pans, utensils and foil, nails and screws, tools and metal boxes. *Food containers must be empty. Place large items separately.*

GLASS, BOTTLES AND JARS

Is refilled or turned into new jars. Glass, bottles and jars are e.g. wine and liquor bottles, food jars, drinking glass and cullents from above items. *Food jars must be empty and can be with the lid.*

RESIDUAL WASTE

Converted into electricity and district heating. Residual waste can be milk and juice cartons, pizza boxes and other greasy cardboard and paper, diapers, hygiene waste, etc., styrofoam, animal litter and vacuum bags. *All residual waste must be properly packaged in closed bags.*

ELECTRONIC WASTE

Contained materials are recycled in new products. Electronic waste is e.g. phones and chargers, electric tooth brushes, electric toys, irons, small kitchen utensils such as hand mixers, blenders, etc., postcards, shoes and ties with light or music. *Place large items separately.*

HAZARDOUS WASTE

For treatment under controlled conditions. Hazardous waste is e.g. chemicals and poisons, low-energy bulbs, fluorescent tubes, paint, batteries, accumulators and spray cans. *Products and empty containers marked with these symbols are hazardous wastes.*

HAZARDOUS WASTE SYMBOLS 2017

OLDER SYMBOLS

BULKY WASTE/WOOD

Wood and metals are being recycled the rest converted to electricity. Bulky waste can be mattresses, carpets and construction waste from DIY*. *Wood like e.g. furniture and pallets must be placed separately.* * Soil, stone and gravel as well as sanitary equipment, roofing tiles, bricks, concrete etc. should be taken to a recycling center.

YOU CAN FIND MUCH MORE INFORMATION ON HOW TO SORT YOUR WASTE ON KK.DK/AFFALD.

In this corner of the court-yard you will find containers for different type of waste **outside and inside**.

Outside you find containers for paper, cardboard, plastic, metal and electronic.

Paper in Danish "PAPIR"

Cardboard in Danish "PAP"

Plastic in Danish "PLAST"

Metal

Electronic

Inside behind the white door "AFFALDSRUM" containers for the bio-waste (left side) and remaining residual waste (right side).

Please put the waste in closed plastic bags. Biowaste NB! Please only use the green wastebags

Should you be in doubt you can dispose any kind of waste here in closed plastic bags, except glass.

NB! Glass can be left in the apartment when you leave or can be disposed in the glass container on Nikolaj Plads opposite corner of the church square.

Thank you very much for taking your time to sort your waste.
